BSB Eurotracks holds open pit lane track days at motorcycle circuits across Europe. The new website was designed to complement the premium service offered by the company, incorporating circuit videos, circuit illustrations that can be enlarged plus all the information prospective clients will need to make an informed decision prior to booking.

The site, at <http://bsbeurotracks.co.uk> was designed and is being managed long-term by Country Marketing with new videos, photographs (including a gallery) and new events being added whenever the client requires.
